

EXTENDED WARRANTY INFORMATION

WHAT IS AN EXTENDED WARRANTY

An **Extended Warranty** is an additional protection that extends the standard manufacturer's warranty period. By opting for the **Extended Warranty**, you safeguard your products against **unforeseen** repair costs for an additional period, ensuring peace of mind and prolonged durability of your gear.

Extended warranty can only be availed within 15 days from the original date of purchase.

WARRANTY DISCLAIMER:

Battery for Wireless Switch and TPMS (Tyre Pressure Monitoring System) are NOT covered under warranty.

✓ **Protection** does not cover **physical damage, water damage, normal wear and tear, and improper installation.**

* **Extended warranty applicable only when **availed within 15 days of purchase.**

IMPORTANT:

Extended Warranty, including coverage terms and conditions, applies in addition to the standard manufacturer's warranty and is subject to the terms and conditions outlined in our **extended warranty agreement.**
